

Parts

Ovation™² HS Ultra High Capacity Fuel & DEF Dispensers

W2940288
Rev 001

DANGER

REVIEW PRECAUTIONS BEFORE YOU BEGIN

Dispensers have both electricity and a hazardous, flammable, and potentially explosive liquid. Failure to follow the below precautions and the Warning and Caution instructions in this manual may result in serious injury or death. Read every tag attached to the dispenser before commencing installation. Follow all rules, codes, and laws that apply to your area and installation.

SAFETY PRECAUTIONS - INSTALLATION AND MAINTENANCE

Always make sure ALL power to the dispenser (motors and electronic head) is turned OFF before you open the dispenser cabinet for maintenance. Physically lock, restrict access to, or tag the circuit breakers you turn off when servicing the dispenser. If applicable, be sure to trip (close) the emergency valve(s) under the dispenser BEFORE beginning maintenance.

Make sure that you know how to turn OFF power to the dispenser and submersible pumps in an emergency. Have all leaks or defects repaired immediately.

EQUIPMENT PRECAUTIONS

Be sure to bleed all air from the product lines of remote dispensers and prime suction pumps before dispensing product, otherwise, damage to the equipment may occur. Always use the approved method for lifting the dispenser. Never lift by the nozzle boot, sheet metal, etc., otherwise equipment damage or personal injury may occur.

USE ONLY GENUINE PARTS

For product liability to be valid, no changes may be made to the equipment without the written consent of Wayne.

REGISTRATION OF SITE AND HOW TO CONTACT WAYNE

The equipment used at this site must be registered prior to contacting Wayne for warranty service. Sites can be pre-registered prior to installation by a Wayne Authorized Service Organization (ASO) via the on-line registration system OR through completing the Section 1 portion of the form, at the end of this manual, and sending it to Wayne (for non-ASOs). Pre-registration of a site helps to expedite warranty service in case it is needed. Please allow 2-3 days after receipt of the information for pre-registration. Final registration, which requires all of the information pertaining to the site including Start-Up date and equipment serial numbers, must be completed within 7 days of the completion of the Start-Up using the same aforementioned methods.

Trouble with the installation of this product should be referred to your Wayne® ASO. An ASO with a technician number can receive assistance by calling Wayne at Technical Support at:

1-800-926-3737

Customers, Installers or Distributors who are not an ASO, needing help with the operation or installation of this product, should contact the Wayne Help Desk at:

1-800-289-2963 OR support@wayne.com

This product complies with Part 15 of the FCC rules and regulations. Operation is subject to the following two conditions: (1) This product may not cause harmful interference, and (2) this product must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device as set forth in Part 15 of the FCC Rules. Those limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy, and if it is not installed and used in accordance with the instruction manual, it may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference, in which case you will be required to correct the interference at your own expense.

Modifications: Any modifications made to this product that are not approved by Wayne Fueling Systems could void your authority to operate this equipment.
